

## LOSER SUES RACE MANAGERS.

RASMUSSEN BUT TRADE UNION'S FUNDS ON THE HORSES.

The allegation that the Westchester Racing Association kept a gambling resort at Morris Park and must give him back his money—lost tips, but he did straighten out the matter.

The union wants back the money which its former treasurer, Peter Rasmussen, had taken from the union's funds on the horses.

Rasmussen should have been a tipster, not a gambler. Racing men who were in court and listened to his bets, after they had consulted the books for that meeting, had no doubt as to the result of the race.

According to J. E. Perdue, counsel for the Westchester Racing Association, Rasmussen had been a tipster, not a gambler. Racing men who were in court and listened to his bets, after they had consulted the books for that meeting, had no doubt as to the result of the race.

The complaint sets forth that the association has carried on race meetings, "not for the purpose of sport, but for the purpose of the laws of the State, but as a place where gambling may be full and freely indulged in."

The association is alleged to be a public nuisance, and a special nuisance to the United Householders' Union, and to be harmful to the community and "subversive of good morals."

Herbert Barry, of Davies, Stone & Auerbach, counsel for the association, moved to dismiss the suit before trial, on the ground that there was nothing in the complaint to show that any officer of the association ever got a cent of Rasmussen's or the union's money.

Justice Amos denied the motion to dismiss and directed the trial to proceed.

Rasmussen, a neat looking German, with a slight accent, said that he had been a tipster, not a gambler. Racing men who were in court and listened to his bets, after they had consulted the books for that meeting, had no doubt as to the result of the race.

Justice Amos denied the motion to dismiss and directed the trial to proceed.

## Utmost Style in Men's Suits, \$15 to \$40

A great painter once said: "A perfect whole is attained by the perfection of a series of details." The painter is dead centuries since. The thought still lives. Our designers have absorbed it.

Incorporated in the various models are the little knacks—side or centre vents, false cuffs, broad, long, angular or rounded lapels—things that make perfect style.

From \$15 to \$40 single and double breasted sack suits in all the modish materials.

### EDISON ENGINEER CONVICTED.

Court Refuses an Immediate Sentence So That He Can Leave the City.

James D. Andrews, of 630 East Twenty-second street, chief engineer of the New York Edison Company's plant at Thirty-fourth street and East River, was the technical defendant in the Court of Special Sessions yesterday in the first smoke case actually tried.

The defence denied the accusations and showed a series of 1,000 photographs of the stacks, in which only a thin, hazy smoke could be seen. The photographs, however, had been taken between the hours of 2 and 3 P. M., and the complaint alleged that the offensive smoke always issued from the stacks at other hours.

BROKAW BROTHERS

TO RAISE A MACDOWELL FUND.

Mendelssohn Glee Club Starts Movement to Aid the Stricken Composer.

It was voted last night at the fortieth annual meeting and dinner of the Mendelssohn Glee Club to take the initiative in establishing a fund the income from which is to be devoted to the support of Edward A. MacDowell, the composer, and at one time a director of the club.

Mr. MacDowell's mind failed about two years ago and he was compelled to resign the professorship of music at Columbia. The fund is to prevent it becoming necessary for him to enter a public institution.

Nothing definite as to the method for raising the money was decided upon but the plan was outlined in an address of Allan Robinson, the retiring president of the club. He said in part:

"An eclipse has come into the life of Edward MacDowell, the greatest American composer, and it is up to his friends here to see to it that the remainder of his life is spent outside of a public home. He needs financial assistance. The project has been brought up some months ago but fell through. Now Mrs. MacDowell has consented to the raising of a permanent fund, the interest of which is to be devoted to his care during his life, and afterward the fund is to be used in a fitting way to perpetuate his memory. This is to be a national fund, but it is right and proper for us to do it."

On motion of Horatio J. Brewer, President Benjamin Prince was directed to appoint a committee of five active members to devise ways and means to bring the matter to public attention.

The bill which passed the Legislature to compel the city to establish voting machines in at least eight Assembly districts had a public hearing before the Mayor yesterday. A machine was put up in the reception room for illustration, but there was no one to explain its workings. The Mayor, after looking it over, decided that it was a mystery he couldn't solve.

John R. Voorhis, chairman of the Board of Elections, opposed the bill. He said that the expense would be very great, as each machine costs about \$800, and that the city would be obligated to use whatever machine should be installed for the experiment. He declared that the Board of Elections, with the approval of the Board of Estimate, had already the power to install as many voting machines as the city needs.

Albert S. Bard, chairman of the ballot reform committee of the Citizens' Union, opposed the bill on the ground that it encouraged straight voting, and because the introduction of the voting machines would delay the introduction of the Massachusetts ballot.

Assemblyman Stanley, who prepared the bill, spoke for it, but received no encouragement from the Mayor.

Burlington's First Crop Report Good.

OMAHA, May 7.—The Burlington Railroad to-day issued its first spring crop report for western Nebraska and Wyoming. The report shows exceptionally fine conditions of winter wheat and oats, with increased acreage of wheat, corn and oats. Especially is the increase in corn in western Nebraska noted. Spring wheat is coming up well. In the cattle districts the report shows live stock wintered with less loss than for years is that grass is two to three weeks earlier than usual. A Government crop report for Nebraska will not be issued this year.

Alleged Oregon Land Grabbers Indicted.

PORTLAND, Ore., May 7.—Announcement was made last yesterday that the Federal Grand Jury had returned indictments against twenty-one men, including a number of wealthy business men, Saturday, charged with conspiring to defraud the Government out of 200,000 acres of the finest timber land in Oregon.

The value of the land is nearly \$1,000,000. More than 400 claims taken under the Timber and Stone act are involved.

More Elevated Trains to West Farms.

The State Railroad Commission yesterday ordered the Interborough to show cause why Second and Third avenue elevated trains should not be run to West Farms over the elevated section of the subway. The board also recommended the enlargement of the 160th street station in the Bronx and ordered the construction of a station on the north-bound elevated track at Eighth avenue and 160th street.

### BUSY WITH ELECTION FORGERY.

Jerome Calls On Hearst's Counsel to Produce His Evidence.

Clarence J. Shearn, counsel for William R. Hearst, was called upon yesterday to produce the books and papers kept by the investigator who reported to the Independence League that many of the names on the petition that nominated William Travers Jerome for District Attorney were forgeries. A subpoena duces tecum was served, and it is probable that the Grand Jury will take up the case to-day.

Eight of the men indicted in connection with the Grand Jury investigation of the "signatures" on the petition that nominated William R. Hearst for Mayor, on which there were 6,500 names, were in the Supreme Court, Criminal Branch, yesterday to plead to the indictments. Two were Max Eckman and James J. Smith, the M. O. Assemblyman and Republican Alderman from the Twelfth Assembly district, of which Jake Newstead is the Republican leader.

At the request of counsel for the defendants the pleadings were put over until Friday.
